SKILLS

- SQL | Python | JavaScript | HTML | Tableau | Flask | CSS | C | Backend | Frontend |
- Motivated and engaged member of a busy team
- Professional and interpersonal communication skills

EXPERIENCE

SQL   **Fall 2021**
- Queried through 5 SQL tables to find the average rating of 3,000 artists in the dataset
- Executed Python to remove the ratings of artists that only had 5 or less reviews
- Visualized the ratings of the top artists to showcase my key findings

Brewery Finder   **Fall 2022**
- Programmed a website allowing users to search breweries through Python, HTML, CSS, Java and React
- Arranged SQL tables in order to store the users login information and their favorite breweries
- Utilized an API called Open Brewery to gain access to 500+ breweries around the US

Team Management   **Spring 2022**
- Collected data on our target market and our main competitors products
- Refined our costs to decrease our upfront investment by 20%
- Communicated with my 5 team members to generate creative ways to standout in our target market
- Showcased our product to a group of investors for funding

LEADERSHIP

INFO Buffs club   **2021-2022**
CO-President
- Communicated with companies and club members to organize meaningful club events
- Generated creative ideas with my team of three to bring in new members

Leeds Association for Information Systems (LAIS)   **2021-2022**
Technology Officer
- Managed the LAIS website to give a professional look to potential customers
- Provided members with networking and professional development opportunities within the technology and information science field

EDUCATION

- University of Colorado, Boulder, CO   September 2018 – May 2022
